

EXPAT NEW EUROPE PROPERTIES

1 FEBRUARY 2011

1. COMMENTS ABOUT OUR RESULTS

We are currently satisfied with the performance of the fund – for the last twelve months it realized a minimal negative yield. For the last 12 months, the fund is ranked third among funds investing in real estate in Bulgaria. We have focused on capital preservation, as most instruments related to real estate have fallen down in value. Our most relevant benchmark, BGREIT increased by 6.39% in January only.

COMMENT – COMBINING POSSIBLE HIGH RETURNS WITH GOOD LIQUIDITY

The mutual fund **Expat New Europe Properties** is suitable for investors who would like to have exposure to the Bulgarian and East European stock markets through collective investment strategies. In “good years”, profits could be significant. Our team decrease the risk through skillful management and diversification in times of market downturns, such as the one of the last two years. Despite the crisis, all our funds have kept their quotations very close to their starting levels of 2008, and this we consider a success. We advise our clients to invest in more than one of our funds in order to diversify risk. A big advantage of mutual funds is that the clients can deposit and take out money every day.

Note: There are about 100 funds in Bulgaria. In this chart we have selected some of the biggest and most popular funds. We have not selected only funds which could be considered favourable for our comparison.

COMMENTS

The return of the mutual fund **Expat New Europe Properties** for the last 12 months is **-0.45%**, because the whole asset category – real estate – had a tough year. In addition, the upper charts show that this fund has very low volatility. Even in its lowest point it had fallen by about 9% from its maximum, which makes it a good conservative instrument. Our expectations about the future profitability are higher, as the fund has invested in shares of REITs which we consider undervalued.

COMMENTS

Our current strategy for the mutual fund **Expat New Europe Properties** is to increase slightly the amounts invested in stocks and in other funds. We have focused on some East-European stocks, as well as on some West-European real estate funds investing in Bulgarian real estates. January was better than December for the real estate market as BGREIT was up 6.39%. Our fund ended the month with a positive result. In January we made a successful arbitrage with the stocks of two Bulgarian REITs. The deposits are with preferential interest rates and we are ready to redirect them to stocks that we consider undervalued. Currently, we continue to identify companies that could be interesting to our funds.
